## Study Tour

### Dual Vocational Education in Theory and Practice

5 days

10-15 participants

A study tour offers a deeper insight into the dual vocational education system in Germany. Through our experts, you will gain insight information and a deep understanding of the following topics:

- **Fundamentals of the Dual Vocational Education System** (Cooperation between companies and vocational schools, the roles and tasks of the chambers in vocational education, legal frameworks, financing mechanism)
- **Structure and Procedures of the Dual Vocational Education System** (development of occupations, training plan, apprenticeship contracts, assessment procedures)
- **Stakeholders of the Dual Vocational Education System** (Companies, vocational schools, HIBB as a particularity from Hamburg, BIBB – Federal Institute for Vocational Education and Training, the Chambers of Industry and Trade, trade unions, federal – and state governments)
- **Didactics within the Dual Vocational Education System** (vocational competence, professional practice, learning location cooperation, investments in future professionals, training of the trainers, teachers advanced training)

You will visit vocational schools, companies, the chambers, the HIBB, trade unions representatives and federations. The visits complemented with a final workshop, where you compile your experiences during the study trip and discuss the transferability to your country-specific situation with our experts.

During **the planning of the study-trip**, we closely coordinate with you in order to respond to your specialised topics in the best possible way.

On this basis, we identify the right institutions for you, organise the visits and prepare relevant lectures.

**Hamburg** offers a variety of vocational trainings and industries.

During the study tours, you can decide in advance whether you want to get a broad overview of different industries or focus on one sector

# TVET Hamburg
